

REMARKS

The foregoing amendment is to impart greater clarity to the claims and to more particularly point out practical applications of the claimed subject matter rather than to avoid prior art.

Applicant respectfully requests reconsideration of this application as amended. Claims 1-33 are pending in the application. Claims 1-33 are rejected. Claims 1-4, 6, 8 and 11-14 are amended.

The Office Action rejects Claims 1-33 for nonstatutory obviousness type double patenting over U.S. Patent No. 7,085,795. Applicant respectfully disagrees that all claims in the present application are obvious in view of the instant patented claims. Never the less, a corrected terminal disclaimer with regard to the above referenced patent is attached herewith as a separate paper, correcting the unintended typographical mistake from the disclaimer submitted October 12, 2007 in the erroneous patent number, 5,085,795, which is not assigned to the assignee of the present application.

Rejections under 35 U.S.C. 101

Claims 1-21 are rejected under 35 U.S.C. 101, as allegedly being directed to non-statutory subject matter. Applicant respectfully requests reconsideration of Claims 1-21 as amended. In particular, Applicant has amended Claims 1-4, 6, 8 and 11-14, limiting them in accordance with the Examiner's rejections and more particularly pointing out practical applications of the claimed subject matter.

CONCLUSION

Applicants respectfully submit the amended specification, the amended drawings, and the present claims for allowance. If the Examiner believes a telephone conference would expedite or assist in the allowance of the present application, the Examiner is invited to call Lawrence Mennemeier at (408) 765-2194.

Authorization is hereby given to charge our Deposit Account No. 50-0221 for any charges that may be due.

Respectfully submitted,

Date: June 9, 2008
